In the city of New York, sixty seven died in two weeks in Decemher of this disease. It is less prevalent in the more northern latitudes, as Russia, Canada, and among the Alps of Switzerland," where the winters are long and

severe, and there are fewer sudden changes. No theory can be more welcome to the human mind than the one which establishes on good grounds the hope for prolonged existence, if the allegar has of thosa who are at least entitled to verseity may believed here is a preventive and a remaly.

The great author of Nature has provided us with a eneedy for Consumption, and the direases leading there-Young men who have injured themselves by a certain ractice indulged in—a habit frequently learned from vil commanions or at school; the effects of which are sacking other lands? Not the best, Vature's own remedy, is at our hand. The Wild Clerry and the Pins

furnish us with a cure where a cut a is possible. One of the most important disc weries of the fase, n ameliorating the condition of this large class of suf ering humanity is .DR. The gentleman told me to give him something to last him home (21 miles) he might sea wur os his wife and hild, and die in peace. I gave him one bottle of Bal sam and four ounces of syrup squills, directing him to take caspoonful doses of best Bordeaux olive oil, when the difficulty of breathing was greatest. Next day I forced his despondent will, and made him take six hottles of Wistar's Bulsam of Wild Cherry home with him as present, he having alleged that he had used so much xpensive medicines to no profit. Last week Mr. A called and expressed his gratitude to me in the warmer namer, aid the medicine had saved his life, paid ha whole bill, and took six bottles more, and left my office for home, rejoicing. BOSTON, Feb. 3, 1851. Dr. S. W. Fowne-Dear[Sir:-Having lately had oc casion to try your celebrated remedy for coughs and colds, Wistar's Balsam of Wild Cherry which I did with success, I cannot in justice to, you withhold my testimony in its favor, For several clays I had been suffering from the effects of a severe cold, accompanied y a very sore throat and sick headache, which comidetely incapacitated me for business. I had taken but a very small portion of a single bottle of this Belsam when I experienced immediate relief. My cough wan broken up at ouco, and my lungs entirely relieved from he pressure which had become so painful. I attribute this relief entirely to the good effects of your Wild Cherry, as I took no other medicine whatever. I cor sally recommend it to all my friends.

OCULISTS.

We to an indersigned citizens, of Franifort, Ky., were on the 25th of October last called upon by Dr. J. B. Gentry, to examine four patients who were allificted with sore eyes of the most virulent character and whn were alout to be placed uoder his treatment for their recovery. We did so examine them, and found them afflicted in the most deplinable manuer; their eyes were dim and shadowy in their appearance, and they seemed to suffer the most dispirable manuer; their eyes were dim and shadowy in their appearance, and they seemed to suffer the most intense and excruciating pain—tho disease having existed will some of them as far back as four years, preventing them from attending to any hussiness during that period. We have been authorized by those patients to certify that in the incredible short time of four weeks that they are well and that we cannot certify in language too strong and forcible the gratitude they leel for the immense hencefit they have derived from the scientific manner in which Dr. Gentry has treated their diseasea. We therefore recommend him to the patronage of all sflitted in like manner.

A great minuter of cases, from two in five years standing, have been cured with the first dose, and the Chill has never, as yet, remirred. It has sinperseded all other preparations wherever it has been introduced.

'lir. Ithan's medicine for the cure of Chills and Feyor has effected some wonderful cures in our midst. A a mig man who has resided for several years in Louislaa, reached New Albeny a few weeks since, weak videnacialed—literally worn ont physically, with ting continued chills and fever. He made a short stay lat the house of Jindge Smith, where his nid disease continued with no less severity than at his leme in Louisina. Having exhausted alimst every remedy known to the medical profession, he procured a hox of Dr. Urban'acelebrated medicine, and after taking two pnwders was entirely reheved and restored to health.
